

EDUCATION

J.S. University	Shikohabad, India
BCA (Bachelor of Computer Applications) CGPA: 7.40	2021 • 2024
Dibrugarh University	Assam, India
Class XII (AHSEC Board)	2019 • 2021
V.K.V Kharsang	Arunachal Pradesh, India
Class X (CBSE Board)	2019

SKILLS SUMMARY

- **Languages:** HTML, CSS, JavaScript
- **Frameworks & Backend:** React.js, Redux, Node.js, Express.js, RESTful APIs, Next.js, Socket.IO
- **UI/Design:** Tailwind CSS, Bootstrap
- **Databases:** MongoDB
- **Tools:** Version Control (Git, GitHub), AWS
- **Soft Skills:** Problem-solving, Communication, Attention to detail, Quick learning

PROJECTS

Secure File Uploader - [Live-link] [GitHub-link]

A backend project built with **Node.js**, **Express**, and **EJS** that securely handles user authentication, file uploads to **AWS S3**, and stores file URLs in **MongoDB**.

- o Engineered a secure backend system with **Node.js**, **Express**, and **EJS**, incorporating **JWT**-based authentication and **Bcrypt** hashing, ensuring 100% protection of user passwords.
- o Integrated **AWS S3** for secure file upload, storage, and retrieval.
- o Managed file metadata and user data in **MongoDB** using **Mongoose**.
- o Built **EJS**-based server-side views for uploading, viewing, and downloading files.

Chatty - [Live-link] [GitHub-link]

A real-time chat application built with the **MERN** stack that allows authenticated users to chat, share media, and see online/offline status with a modern, responsive UI.

- o Built real-time chat functionality using **Socket.IO** with online/offline user status.
- o Implemented **JWT authentication** and **bcrypt** for secure user login and data protection.
- o Used **Cloudinary** for media uploads and **Redux** for global state management.
- o Designed a **responsive UI** with **Tailwind CSS** and **DaisyUI**, and managed API calls via **Axios**.

News-Hub - [Live-link] [GitHub-link]

A full-stack news application built with **React**, **Tailwind CSS**, **Node.js**, and **Express** that fetches and stores news from external APIs, allowing users to explore categorized and searchable articles through a responsive interface.

- o Built a **MERN-based** news platform fetching real-time news from third-party APIs.
- o Implemented **category filters**, **search functionality**, and **infinite scrolling** for a seamless browsing experience.
- o Designed a **fully responsive UI** using **React**, **Tailwind CSS**, and **Lucide React** icons.
- o Developed a **Node.js + Express** backend with **Axios** and **dotenv** for API integration and configuration.

Personal Portfolio - [Live-link] [GitHub-link]

A modern, responsive portfolio website built with **Next.js** and **Tailwind CSS**, showcasing personal projects and skills. deployed seamlessly on **AWS Amplify**.

- o Built using **Next.js** for fast performance and optimized routing.
- o Styled with **Tailwind CSS** for a clean, responsive, and modern design.
- o Deployed securely and efficiently on **AWS Amplify**.
- o Showcases **live project demos**, GitHub links, and professional details in an optimized layout.

CERTIFICATES

MERN Stack Development – Ducat, Noida

- o Completed an in-depth full-stack development course focused on building end-to-end web applications using **MongoDB**, **Express.js**, **React.js**, and **Node.js**. Gained hands-on experience in creating RESTful APIs, implementing **JWT authentication**, handling **CRUD operations**, integrating **frontend and backend**, and deploying projects on cloud platforms.
